

AYUB MEDICAL COMPLEX ABBOTTABAD

Clinical Departments Directory

Knowledge Base Category: Departments

Overview

This sample directory describes common hospital departments and the type of service each may provide. Actual service availability should be confirmed through verified hospital information.

Departments

Emergency Department	Urgent assessment and treatment of acute illness, injury, and other emergencies.
Medicine	Assessment and management of adult medical conditions.
Surgery	Assessment and surgical management of conditions requiring operative or procedural care.
Pediatrics	Medical care for infants, children, and adolescents.
Obstetrics & Gynecology	Pregnancy-related care and women's reproductive health services.
Orthopedics	Assessment and management of musculoskeletal injuries and conditions.
Radiology	Diagnostic imaging such as X-ray, ultrasound, CT, and other available modalities.
Laboratory/Pathology	Testing and analysis of clinical specimens.
Pharmacy	Medication dispensing and medication-related support according to hospital procedures.
