

AYUB MEDICAL COMPLEX ABBOTTABAD

Emergency Department Workflow

Knowledge Base Category: Emergency

Arrival

- Patients enter through the designated emergency process.
- Clinical triage is performed according to urgency.
- Patients requiring immediate intervention are taken for urgent assessment and stabilization.

Assessment

- Initial assessment identifies immediate threats to life or function.
- Diagnostic tests may be requested as clinically appropriate.
- The patient may be treated, observed, admitted, transferred, or discharged depending on findings.

Attendant Guidance

- Keep emergency access routes clear.
- Provide accurate medication and allergy information.
- Follow staff instructions during urgent procedures.
- Remain in designated waiting areas unless directed otherwise.

Escalation

If the patient's condition changes while waiting, immediately alert emergency staff.
