About This Knowledge Base

Ayub Medical Complex Abbottabad is the hospital identity used for this synthetic RAG dataset. The documents are structured to simulate a hospital information repository.

Knowledge Base Scope

- Admissions and registration.
- Clinical departments.
- Emergency services.
- General hospital information.
- Patient safety.

Information Categories

Administrative	Admissions, registration, documentation, visiting information
Clinical	Departments, referrals, diagnostics, emergency care
Safety	Patient identification, medication safety, infection prevention, incident reporting
Patient Support	General guidance, attendants, discharge information

Document Governance

- Prefer documents with clear titles and dates.
- Verified institutional policies should replace synthetic documents before production use.
- Conflicting documents should be flagged for review rather than silently merged.

Synthetic sample content for RAG testing. This is not an official Ayub Medical Complex policy, clinical protocol, contact directory, or medical advice. Replace with verified institutional documents before production use.
